Dallas residents are urged to take precautions against mosquito bites by reducing outdoor activity during the evening and nighttime hours. Residents who are outside during these times should cover their arms and legs and use a mosquito repellent.

#### **Prevent mosquito breeding**

Residents should eliminate standing water to prevent mosquito breeding and the spread of West Nile Virus. Breeding places for mosquitoes include swimming pools that are not kept clean, stagnant ponds, pet watering dishes, birdbaths, potted plants, old tires, empty containers, toys and clogged rain gutters and French drains. Eliminate standing water promptly, as mosquitoes can grow from egg to adult in as little as seven days. Las personas que están fuera durante el tiempo de fumigación programado deben estar alertas a los camiones y no deben seguirlos. Se aconseja a los residentes que entren en contacto con el aerosol que laven bien el área afectada con agua y jabón. El aerosol se descompone rápidamente en presencia de la luz solar y no tiene ningún efecto residual.

### **Protección contra picaduras de mosquitos**

Se pide a los residentes de Dallas a tomar precauciones contra las picaduras de mosquitos reduciendo la actividad al aire libre durante las horas de la tarde y la noche. Los residentes que están afuera durante estos periodos de tiempo deben cubrirse los brazos y las piernas y usar un repelente de mosquitos.

### **Prevenir la cría de mosquitos**

Los residentes deben eliminar el agua estancada para evitar la reproducción de mosquitos y la propagación del Virus del Nilo Occidental. Los lugares de reproducción para los mosquitos incluyen piscinas que no se mantienen limpias, estanques, recipientes con agua para mascotas, bebederos para pájaros, plantas en macetas, neumáticos viejos, contenedores vacíos, juguetes, canaletas de lluvia obstruidas y desagües franceses. Elimine el agua estancada rápidamente, ya que los mosquitos pueden crecer de huevo a adulto en tan solo siete días. Los residentes de Dallas pueden recibir pastillas gratuitas para mosquitos en las oficinas del distrito de Servicios de Cumplimiento del Código hasta agotar existencias.
